Ny Design

Nimbus Boats har tagit fram helt ny dekor till de flesta av modellerna. De nya satserna levereras med samma mörkblå dekor som dagens produktion av båtar, dock anpassade till respektive modell. Båtarna får ett mycket mordernare utseende och en mer tidlös design. Vattenlinjen levereras std. som blå-blå men kan enkelt bytas mot blå-röd. Nimbus kommer att tillhanda hålla originalsatser så länge som möjligt, det kan dock skilja på detaljer och linjer, men i huvudsak är stripsen samma.

New Design

Nimbus Boats has designed new decorstripes for most of the older models, this new designed decor gives your Nimbus a very modern and attractive design. The new decor is same character as the new production of Nimbus, but suited for the older models. Std. Colour is in darkblue but the waterline can easily be changed to red-blue. Nimbus can also supply original stripes for most of the models, there may be some minor changes made.
